

Get The PennTex Advantage!
PERFORMANCE, ENDURANCE AND SATISFACTION

HOW TO TELL IF YOU ARE BUYING A GENUINE PENNTEX ALTERNATOR

All Genuine PennTex alternators have an aluminum identification tag attached with rivets. This tag has the voltage, model, amperage rating, and an assigned serial number unique to that alternator. Every alternator manufactured by PennTex is registered in our files, and we can track when it was made and who it was originally shipped to by that serial number.

If you have any question about an alternator being represented to you as being manufactured by PennTex, contact us by phone, email, or fax, and we will be glad to verify the serial number.
